Application Deadline: J<mark>anuary 29, 2026 23:59 EST</mark>
Take a central role
The Bank of Canada has a vision to be a leading central bank-dynamic, engaged and trusted-committed to a better Canada. No other employer in the country offers you the unique opportunity to work at the very center of Canada's economy, in an organization with significant impact on the economic and financial well-being of all Canadians. You will be challenged, energized and motivated to excel in our environment.

Building on the principles that have always guided us - excellence, integrity and respect - we strive to be forward-looking and innovative, to welcome people with diverse perspectives and talents, and to earn trust by living up to our commitments and by clearly explaining the intent of our policies and actions.

With our defined-benefit pension plan, benefits, and high flexibility for work life balance - find out more about why we are annually ranked as one of Canada's top employers: Working Here - Bank of Canada

Find out more about the next steps in our Recruitment process.

About Your Team
As a student Web Developer, you'll be part of the dynamic Digital Experiences team, an agile (scrum) team consisting of

developers, designers, and content specialists. Our team values innovation and open communication, and makes significant contributions to the Bank of Canada's web presence.

What You Will Do

As a member of the Digital Experiences Team, you will play an important role in enhancing the usability of the Bank's web applications and websites. Your responsibilities will include:

• Collaborating on the development of web-based products

•Writing clean code in PHP, Python and/or JavaScript

•Supporting both back-end and front-end development efforts

•Contributing to team meetings and sharing ideas to improve web development processes and user experiences

•You'll have the chance to contribute to the evolution of the Bank's digital platforms and gain valuable hands-on experience.

Remote work / Hybrid Work Model

The Bank offers work arrangements that provide employees with flexibility, enable high-performing teams, and support an excellent workplace culture. Most employees can telework from home for a substantial part of each month as part of the Bank`s hybrid work model, and they are expected on site at the Bank location a minimum of 12 days per month to help build connections between colleagues. You must live in Canada, and within reasonable commuting distance of the office. For this position, should you not live within reasonable commuting distance of the office, you will be able to work 100% remote (within Canada) for the duration of this term.

What you can expect from us

This is a great opportunity to join a leading organization and be part of a high-performing team.

• Salary $28.73 hourly (job grade Student C)

We wish to thank all applicants for their interest and effort in applying for this position. Only candidates selected for interviews will be contacted.

.

Job Requirements

What You Need to Succeed

We're seeking creative individuals who thrive in collaborative environments and enjoy overcoming challenges. Your experience in web development should include:

• Hands-on experience with PHP, particularly in developing and maintaining WordPress sites, themes and plugins.

•One or both of the following:

• Proficiency in CSS and JavaScript.

•Proven experience with Python.

•Familiarity with various web frameworks and libraries, such as Laravel or FastAPI.

•Solid understanding and experience with relational databases, particularly MySQL.

•Experience with iterative web development and test-driven development.

•Experience with automated testing using PHPUnit, Behat, Selenium and Cypress.

•Knowledge of version control systems such as Git and SVN.

Nice to Have

• Portfolio or Git repository showcasing your previous projects and code examples.

•Knowledge of Python or other programming languages.

•Experience with AI tools and machine learning.

•Familiarity with Azure services.

Your Education

You must be currently enrolled in a co-op program in a college or university (undergraduate level) on a full or part-time basis, pursuing a degree in computer studies, engineering, web development, or a related field. Additionally, you must be returning to school in the next academic term (Fall 2026).

Innovative Mindset

We value candidates who demonstrate adaptability, curiosity, and a willingness to learn new technologies, including AI and digital tools. We seek individuals who can think critically about data, question existing processes, and find ways to simplify our work while embracing change and new ways of doing things.

Language requirement

The Bank's work environment is conducive to the use of both of Canada's official languages - English and French. Although the position language requirement is English or French essential, we do encourage everyone to improve second their language proficiency for future career growth and to contribute towards fostering a bilingual environment.

What you need to know

• This position is full-time (37.5 hours per week).

•Priority will be given to Canadian citizens and permanent residents

•Security level required: Be eligible to obtain Reliability

•There will be no relocation assistance provided

•Please save a copy of the job poster. Once the closing date has passed, it will no longer be available.

Citizenship Requirement   Canadian & Permanent Residents Preferred
