We help the world run better

At SAP, we keep it simple: you bring your best to us, and we'll bring out the best in you. We're builders touching over 20 industries and 80% of global commerce, and we need your unique talents to help shape what's next. The work is challenging - but it matters. You'll find a place where you can be yourself, prioritize your wellbeing, and truly belong. What's in it for you? Constant learning, skill growth, great benefits, and a team that wants you to grow and succeed.

What you'll build

The SAP Internship Experience Program is SAP's global, strategic, paid internship program that provides university students withopportunities to find purpose in their careers. This is more than an internship, it's the foundation for a career built on connection, creativity, and impact.

Position title: SAP iXp Intern - Full Stack Developer

Location: Montreal, Quebec

Expected start date to end date: January 5, 2026 - August 31, 2026

• Have the unique opportunity to design, develop and deliver cloud-native micro-services to major global retailers using the latest technologies

•Implement backend and/or frontend features and create unit tests for your deliverables

•Deploy cloud services in our landscape (development, staging) using CI/CD

•Communicate with team leads and Product Management to understand the requirements of assigned tasks
•Collaborate with Quality specialists to ensure high quality and test automation
•Experience Agile practices: SCRUM methodology, pair programming, etc.
•Learn tons and build amazing relationships
Where you belong

Be part of SAP Next Gen, a global community for students, universities, schools and educational partners, who are passionate about innovation and technology.

1. **Culture of Collaboration:** Partner with experienced SAP colleagues and expert mentors who will support your growth. Grow professionally through personalized mentoring, coaching, and career development support.
2. **Project-driven Experience:** Kickstart your career with hands-on learning experience, making an impact from day one by contributing to meaningful projects that help the world run better. You'll have endless learning resources at your fingertips and gain future-ready skills from a variety of virtual, in-person, and hybrid learning sessions, cultivated just for you, and aligned with our learning approach.
3. **Gain Visibility:** Build relationships with leaders and peers across teams and functions. Showcase your ideas, skills, and creativity in a global, fast-paced environment. Open doors for future career opportunities within SAP and beyond.

The SAP Customer Experience (CX) unit is focusing on building cutting-edge cloud native products for customers in the Commerce and Consumer industries, more specifically the Retail industry. We are bringing together product strategy with all the necessary cloud business functions such as architecture, engineering and operations. In OMS team, we are providing our customers with intelligent, integrated and omnichannel order management solution.

Our culture is built on curiosity, innovation, and collaboration. We believe great ideas can come from anywhere! You can expect to join a dynamic and friendly cross-functional development team focused on solution that brings value and impact, and passionate about the retail industry.

You'll thrive here if you're someone who loves to solve complex problems, think creatively, and learn continuously. You'll work alongside passionate engineers that promote transparency, value integrity, curiosity and teamwork and are highly motivated to support each other. Our OMS project is an opportunity to grow your skills, test new technologies, and contribute to solutions that have a real, global impact.

Follow @LifeatSAP on Instagram and don't miss anything about our experiences worldwide!

#LifeAtSAP #SAPNextGen

If you have less than three years' professional experience, you'll be part of SAP Next Gen.
SAP Next Gen connects curious, ambitious, team-oriented students and early talent to SAP's?global community of innovators, peers, and leaders.
With access to hands-on experiences that sharpen skills, and the wisdom?of the leaders shaping what's next, knowledge becomes impact and mentors become allies.??
SAP Next Gen doesn't just prepare you for the future, it nurtures your talents and your drive so that you can create it with us, together.

Bring out your best
SAP innovations help more than four hundred thousand customers worldwide work together more efficiently and use business insight more effectively. Originally known for leadership in enterprise resource planning (ERP) software, SAP has evolved to become a market leader in end-to-end business application software and related services for database, analytics, intelligent technologies, and experience management. As a cloud company with two hundred million users and more than one hundred thousand employees worldwide, we are purpose-driven and future-focused, with a highly collaborative team ethic and commitment to personal development. Whether connecting global industries, people, or platforms, we help ensure every challenge gets the solution it deserves. At SAP, you can bring out your best.

We win with inclusion

Due to the nature of the role, which involves global interactions with SAP entities, as well as with employees and stakeholders in Canada, functional proficiency in English is required for positions based in the Quebec.

Job Requirements

What You'll bring

We're looking for someone who takes initiative, perseveres, and stay curious. You like to work on meaningful innovative projects and are energized by lifelong learning.

• Education: Bachelors or Masters in Computer Science
• Eligibility: Must be currently enrolled (with at least one semester or grading period completed before internship commences) or recently graduated (start date must be within 6 months of graduation date) from a coding academy/bootcamp, apprenticeship, associate, bachelor's, master's or JD/PhD program.
• Strong programming skills in Java, Spring framework, JavaScript, React and Git
• Preferred experience: Experience with Cloud architecture and micro-services is a must. Knowledge on Kubernetes, Kafka queues, Azure public cloud is a plus
• Organized: Strong problem-solving skills and willingness to do research tasks
• Curious: Proactive, autonomous and taking ownership of the tasks and project
• Team player: Great collaboration and listening skills
• Clear and efficient communication skills (both French and English are required)
• This position is offered in hybrid mode. You must be willing to join us, in-person, in the Montreal office at least 3 days a week for the duration of the internship.

Citizenship Requirement   N/A
