Job Description	

About the role

This particular internship opportunity will be contributing to the vital efforts of our **Accounts and Agencies** team in our engineering organization. Here's a quick overview of what they do:

Curious about the day in the life of an intern?
• Interns at Coalition will be able to work remotely thus giving you the flexibility of working in an environment of your choice
•Did I mention that our internships are paid and full-time?
•You will be paired with your very own mentor that will be your source of guidance and direction during your internship
•Duration: 10-14 weeks (ideally)
•An intern project will be decided between you and your mentor
•The ability to meet senior technical and business leaders across the company
•At the end of your internship, you will have the ability to showcase your completed project and reflect on your time at Coalition
•You will gain some exceptional experience in a fast-paced, fun and inclusive environment
•PLUS...there could be potential for post-internship career opportunities
We believe in saying "yes" when it comes to venturing into the ever-changing world of tech. Your fellow teammates are right there with you. All of our individual successes contribute to the larger success of the company. One for all and all for one!
It's that time. Let's take a closer look at the role responsibilities and qualifications.

Responsibilities

• Design and code the right solutions starting with broadly defined problems
•Find and build unique solutions to implement projects from the idea phase to production
•Test and iterate code before and after production release
•Work in an agile environment to deliver high quality software

Job Requirements

Skills and Qualifications

• Currently pursuing a Bachelor's or Master's degree in Computer Science, Computer Engineering, Electrical Engineering, Math, Physics, or related field
• You are entering your 4th year at university or final year for an advanced degree
• Knowledge of Computer Science fundamentals such as data structures, problem solving, databases
• Comfortable in one or more programming languages like Go, Python
• Ability to participate in a full-time internship between June-August

Citizenship Requirement   N/A
