Job Description

Req ID: R-0000152270
Job Description
What is the opportunity?
Are you interested in the opportunity to work as a **Quantitative Technology Services Co-op** at RBC? By applying to this job posting, you will be considered for multiple roles available across RBC QTS.

What will you do?
• Analyze business requirements and translate them to technical specifications.
• Create designs, develop, code, and perform code reviews and testing of applications, as per Software Development Life Cycle (SDLC) best practices.
• Design and integration testing of applications.
• Release and incident management of applications.
• Responsible for all ranges of project work and daily support as outlined by given business and increasing efficiencies in current department.
What's in it for you?
• We thrive on the challenge to be our best, progressive thinking to keep growing, and working together to deliver trusted advice to help our clients thrive and communities prosper. We care about each other, reaching our potential, making a difference to our communities, and achieving success that is mutual.
• Network and build lasting relationships with students from diverse backgrounds from across Canada.
• Participate in fun events and challenges to help build your career tool kit while enjoying a work-life balance.
• Leaders who support your development through coaching and learning opportunities.

•Work in a dynamic, collaborative, progressive and highly performing team.
•Ability to make a difference and lasting impact.

Job Requirements

What do you need to succeed?
Must-have
• Working towards a degree in computer science, engineering, mathematics, or a related degree, and currently maintaining
 academic excellence.
•Experience developing applications within a UNIX/Linux or Windows based environment.
•In-depth programming knowledge of one of the following languages: Java, C#, C/C+, Python, JavaScript, HTML, CSS.
•Must be a self-starter, with strong analytical and interpersonal skills, as well as the ability to work in a fast-paced environment and
 manage multiple competing priorities.
•Strong MS Office skills and experience presenting to stakeholders.
Citizenship Requirement   N/A
