Country	Canada

JOB POSTING INFORMATION

Placement Term	2026 - Summer
<b> Job Title <b>	S26 Co-op Researcher-Computer Vision and Machine Learning 177400
Position Type	Co-op Position
Job Location	Markham, ON
Country	Canada
Duration	12 or 16 months
Salary Currency	CAD
Salary	0.0 per hour for 0 Major List
Salary Range $	28-38/hr
Job Description	

About the Team:

Founded in 2012, the Noah's Ark lab has evolved into a prominent research organization with notable achievements in academia and industry. The lab's mission focuses on advancing artificial intelligence and related fields to benefit the company and society. Driven by impactful, long-term projects, the aim is to enhance state-of-the-art research while integrating innovations into the company's products and services, including LLMs, RL, NLP, computer vision, AI theory and Autonomous driving.

About the job:

• Dig deep into a computer vision and machine learning topic, becoming a subject matter expert and driving innovation.

•Design and implement the state-of-the-art algorithms for spatial reasoning and multimodal foundation model.

•Evaluate and benchmark solutions with internal datasets.

•Collaborate closely with our other researchers, exchanging knowledge and expertise to drive impactful discoveries.

Collaborate with cross-functional team members, including regular attendance and participation in meetings and working groups.

Job Requirements

About the ideal candidate:

• Currently pursuing a degree in Computer Science, Machine Learning or a related field.

•Excellent written and verbal communication skills

- Excellent coding skills with Python and/or C++
- Familiarity with deep learning frameworks such as Pytorch and Tensorflow
- Familiarity with Linux
- Solid understanding of core concepts, including linear algebra, probability theory, optimization, computer vision, and machine learning
- Experience in one or more focus areas: Computer Vision, Deep Learning, VLMs, LLMs, etc.

Citizenship Requirement   N/A

APPLICATION INFORMATION

Application Procedure   Through UBC Science Co-op

Special Application Instructions

Please apply both through SCOPE and through the employer's website.
