Job Description

Powerex Corp.
Position: Full Stack Developer - Co-op
Duration: 8 months

Job Description
Are you a creative problem solver with a passion for programming? Do you love working as a part of a team and creating meaningful impacts? Powerex Corp. has an exciting opportunity for an individual looking to gain more than just programming experience. If you are driven to succeed, are team-oriented, "able to make things happen", have a sense of commercial urgency and demonstrate strong communication and analytical abilities, we want to hear from you.
Powerex has a co-op position available within our IT Department, directly supporting our dynamic & exciting business operations. For the right individual, this will mean numerous technical and non-technical learning opportunities, as well as exposure to the environment of energy trading. IT is at the very heart of Powerex' fast-paced business.
Here's just a sample of the tools, technologies and processes our recent co-ops have gained exposure to, at Powerex:
• Tools: Visual Studio, SQL Server Management Studio, TeamCity, Tableau, Automate, DataGrip, Azure DevOps
• Libraries: DevExpress, LLBLGen
• Technologies/Languages: C#.Net, React, ASP.NET/ ASP.NET MVC, Bootstrap/CSS/HTML, JavaScript, Microsoft SQL Server(T-

SQL), Python, Jupyter Notebook, Streamlit, Azure Functions, EntityFramework, Oracle(PL/SQL), Snowflake, PowerShell Scripting, REST API, VBA

• Processes: Agile development (Scrum), Application Design, Application Support/Troubleshooting

What you will learn:

• Skills for design, development, testing and sustainment of new and existing applications to address business and IT needs

• Relationship building with Business Analysts, Solution Architects, and end-users to elicit and understand business/technical requirements and specifications

• How to develop and document application design specifications.

Salary information:

• $44,000 if 1st co-op term

• $46,000 if 2nd co-op term

• $48,000 if 3rd co-op term

• $50,000 if 4th co-op term

About Powerex

Powerex Corp., a wholly-owned subsidiary of BC Hydro, is a leading marketer of wholesale energy products and services in western Canada and the western US, and a growing niche player in other markets across North America.

At Powerex we work hard to provide our customers -- utilities, power pools, large industrials and power marketers -- with the energy products and services they need, when and where they need them. From energy and capacity sales to natural gas trading, Powerex has come to be known as a power marketing and trading company with the reliable supply, business flexibility and customer commitment to get the deal done.

Supply. Flexibility. Commitment. We stake our reputation on it.

Job Requirements

What we are looking for:

• Ability to take the initiative and be a problem solver

• Ability to analyze and interpret requirements effectively

• Ability to adapt and work well in a team development environment

• Ability to learn new applications, tools, methodologies and aspects of the business quickly

• Ability to stay organized with minimal supervision in an environment where you will have multiple tasks, tight deadlines, and changing priorities.

Nice to have:

• Experience with C#.NET, Visual Studio, SQL Server, Oracle

• Experience writing database queries in Oracle and/or SQL Server

• Development and debugging experience in C#

• Experience with Microsoft Office Products

• Previous co-op experience

Other:

• Must be allowed to work in Canada

• This role is location in Vancouver, British Columbia

Citizenship Requirement   N/A
