Job Description	

Job Requisition ID #
25WD92633

Here is an incredible opportunity to work with professionals who build some of the most advanced 3D animation solutions for Hollywood's special-effects, visualization specialists, game and film artists. The Entertainment and Media Solutions (EMS) group is composed of a range of software used by thousands of creators and artists in the media and entertainment industry such as Maya, 3ds Max, Flame and FlowPT. This is a great opportunity to get front-line development experience in a stimulating environment. You will work with a team of professionals who will provide guidance and share their expertise in this exciting and important area of software development. Learn some new invaluable skills to push your career to the clouds.
Please note that this is a hybrid position for Summer 2026 (May -August 2026 work term).
You Will:
• Be an active member of our team developing features helping provide the best real-time experience and workflows for our customers using the latest in technology
• Participate in iterative design, testing and development sprints to refine the product solution.
The 2026 Canada Internship program runs for 16 weeks (May 4th - August 21st). All internships are paid. As an intern, you will contribute to meaningful projects, be mentored by industry leaders, and participate in tech talks and other activities designed to support your personal and professional development. Our internships align with Autodesk's Flexible Workplace approach, which is designed to meet the needs of our business while providing flexibility in support of office, remote and hybrid work preferences.
