Job Description

University Co-op Student- Computer Science/Software Engineering-12 Months-Fall 2025
Deadline: <mark>May 26, 2025</mark>
Location: Rexdale, ON, CA
Company: Hydro One Networks Inc
Location : C09 - Richview TS - 65 Kelfield Street, Rexdale, ON M9W 5A3
Company : Acronym Solutions
Acronym Solutions is a full-service information and communications technology company that provides a range of scalable and secure solutions. With more than 20 years' experience managing the communications system that enables Ontario's electrical grid, Acronym is uniquely positioned to understand the mission-critical needs of any business. We deliver innovative and reliable services that respond to the changing demands of businesses and support rapid growth and digital transformation.
It's an exciting time to join the team at Acronym Solutions!
The successful applicant will help plan, develop, implement, and support IT solutions at Acronym.
General Accountabilities:
• Configure and maintain complex enterprise application systems
•Provide front-line technical support
•Produce technical documentation
•Administer and maintain servers and databases
•Work with Unix and Linux operating systems
•Participate in large-scale enterprise IT projects
•Interface with other units as required.
Position will provide you with the following professional development:
• The successful applicant will have the opportunity to work directly under the supervision of the IT team, where they will be able to

participate directly in projects and day-to-day IT Operations Support. This will develop hands-on skills including the design and planning of enterprise applications and infrastructure

- The successful applicant will learn how to prioritize tasks in a fast-paced environment, how to work as part of a functional and project team, including written and oral communication skills.
- The successful applicant will learn the practical use of various software tools to support the IT function such as MS Office (Visio, Excel, Word), Power BI, various data base platforms, and various OSS/BSS tools to support the telecommunications business.
- See first-hand how a commercial telecom service provider operates
- Gain experience in computer system administration
- Practice hands-on operations support of a large IT infrastructure
- Hone your skills in customer service
- Develop skills in technical documentation
- Participate in enterprise software implementation and integration projects

If you are an international student, please ensure you have obtained a proper work permit and a Social Insurance Number (SIN). Speak with your school's career centre if you have any questions about acquiring this documentation.

At Acronym we understand that the success and strength of our business rests with our people. When we develop their skills, we are investing in both their success and ours. To secure the best talent, we seek to create a workforce that reflects the diverse populations of the communities where we live and work and to create a culture based on safety, innovation and inclusiveness.

We are honoured to be recognized by Forbes in its list of Canada's Best Employers for 2025.

Thank you for considering a career with Acronym, we welcome applications from all qualified candidates. If you are having difficulty using our online application system and you need an accommodation due to a disability, please email careers@hydroone.com. Acronym will provide reasonable accommodation for qualified individuals with disabilities in the job application process.

In the event you are experiencing difficulties applying to this job please consult our help page here.

We thank all applicants for their interest in a career at Acronym Solutions; however, only those candidates who are selected for an interview will be contacted.

"Employer of the year 2025"
