Job Title: Solution Developer Co-op
Job ID: 767510
Location: Montreal, Ottawa
At this time, Ericsson Canada Inc. does not provide immigration assistance/sponsorship now or in the future for this position.
About this opportunity
Ericsson is enjoying extraordinary success with 5G, where we have been awarded major deals with all large operators across the globe. Together with our customers, we are designing and implementing the most sophisticated 5G networks in the market thanks to our technology leadership and our global scale in R&D, sales, and service delivery.
Recently, Ericsson continued its pace of bringing innovation to the market with the launch of the Ericsson Cloud RAN, a rich new 5G RAN portfolio designed to be fully cloud native, using the experience of powering the most demanding 5G networks in the world, interworking with our extensive radio solution portfolio, adopting a rapidly growing telco infrastructure ecosystem.
Over the next several years, we will enable exciting new services for consumers and enterprises and lead a new industrial revolution thanks to 5G. Now, we're seeking the best of the best to join us on this journey!
What you will do:
• Software development in a team with focus on innovation
• Fast service development and deployment of Demos and POCs
• Establish efficient ways of working, including methods and tools.
What happens once you apply?
