Job Description

Category: Software Development/ Engineering
Main location: Canada, Ontario, Toronto, Markham
Position ID: J0425-1278
Employment Type: Student Internship

Position Description:

We are Canada's largest independent information technology services firm, and after 45 years, we're still growing. We are looking for Project Control Officer to support Business Operations in our growing team. We are offering a chance to work with our team of experience professionals, who are responsible for maintaining the standards of project management and providing high-value support to our Business Unit. This is your opportunity to learn about business operations and project management in an advanced business environment. You will work with CGI Consultants, Directors and Executives on a full range of business operations, program management and resourcing activities/tasks.

In an effort to foster collaboration and partner with clients, co-op students will be required to be in the office multiple times a week.

Start Date: September 2025

Application Deadline: May 16th, 2025

Your future duties and responsibilities:

Perks of Being a CGI Co-op:

• Participate in monthly socials to meet co-ops across the country.

• Access professional development workshops hosted by domain experts on topics ranging from how to be a top consultant, how to apply the agile methodology, data & analytics and more!

To learn more about CGI and hear from our Co-ops and New Grads, visit www.cgi.com/startmycareer

Your future duties and responsibilities:

What You'll Do:

• Help collect, clean, and prepare data for AI and analytics projects.

• Build simple ETL (Extract, Transform, Load) workflows to move and shape data.

• Work with Python and SQL to explore and process datasets.

• Support data scientists and developers by getting the right data to the right place.

• Try out tools like Azure Data Factory, Databricks, or Synapse Analytics.

• Document what you build so others can learn from it too.

• Keep an eye on new trends in AI, data, and cloud technology.

Skills:

• Artificial Intelligence

•Java

What you can expect from us:

Together, as owners, let's turn meaningful insights into action.

Life at CGI is rooted in ownership, teamwork, respect and belonging. Here, you'll reach your full potential because…

You are invited to be an owner from day 1 as we work together to bring our Dream to life. That's why we call ourselves CGI Partners rather than employees. We benefit from our collective success and actively shape our company's strategy and direction. Your work creates value. You'll develop innovative solutions and build relationships with teammates and clients while accessing global capabilities to scale your ideas, embrace new opportunities, and benefit from expansive industry and technology expertise. You'll shape your career by joining a company built to grow and last. You'll be supported by leaders who care about your health and well-being and provide you with opportunities to deepen your skills and broaden your horizons.

At CGI, we recognize the richness that diversity brings. We strive to create a work culture where all belong and collaborate with clients in building more inclusive communities. As an equal-opportunity employer, we want to empower all our members to succeed and grow. If you require an accommodation at any point during the recruitment process, please let us know. We will be happy to assist.

Come join our team-one of the largest IT and business consulting services firms in the world.
