Job Description	

Job Description

Oncoustics is a start-up that uses AI on ultrasound data to help find disease. We are looking to hire a student for an 8 month Co-Op term. Eligible applicants should be in their second year or beyond in a computer engineering or medical based field, and have some programming experience. Specifics of the opportunity include:
Responsibility
• Enhance existing, or develop new, software programs in one (or more) of mobile, backend, or cloud
• Support QA of company solutions
• Collaborate with other team members for most efficient development

Job Requirements

Requirements
• Must be actively enrolled in an accredited Canadian University or College during the co-op placement.
• Experience in coding, ideally in either a mobile or server framework
• Completed at least the second year, and currently enrolled in an accredited Canadian University in Engineering, Comp Sci, Physics, Math, etc
• Must be a Canadian Citizen or Permanent Resident

Good To Have

• Prior experience in the biomedical field

•Self-motivated

Citizenship Requirement   Canadian & Permanent Residents Only

APPLICATION INFORMATION
