Job Description

Job locations:
Ontario, CAN - Remote
Montreal, QC, CAN
Vancouver, BC, CAN
Job Requisition ID # 25WD92412
25WD92412, Intern, Machine Learning Operations Engineer
About the Fusion-ML team
Autodesk builds software that empowers creators in architecture, engineering, manufacturing, media, and entertainment to design and make a better world. The company is increasingly focused on advancing Artificial Intelligence and Machine Learning to drive the future of design and automation.
The Fusion ML team consists of ML researchers and ml engineers focused on building models and putting them in production.
Position Overview
Involved in different model operations and machine learning engineering of our team; however, this position - most likely - focused on model operations and machine learning operations specifically. This position is intersectional and requires interacting with different teams such as infrastructure to figure out specific requirements.
The 2026 Canada Internship program runs for 16 weeks (May 4th - August 21st, 2026). All internships are paid. As an intern, you will contribute to meaningful projects, be mentored by industry leaders, and participate in tech talks and other activities designed to support your personal and professional development. Our internships align with Autodesk's Flexible Workplace approach, which is designed to meet the needs of our business while providing flexibility in support of office, remote and hybrid work preferences.
Responsibilities

- Serving Frameworks (torchserve, fastapi, onnx)
- Containerization and Orchestration (Docker, Kubernetes)
- Tests for ML development CI/CD for ML (Jenkins, MlFlow and similar pipelines)
- ML workflow and pipeline development is a plus
- Any ML productionizing in your past experiences is also a plus
