Job Description	

Description

As a Data Analyst Intern, you'll have the opportunity to work alongside our experienced data analytics professionals, gaining hands-on experience in data collection, analysis and reporting.

About the Role

• Assist in the collection, organization, and cleaning of data from various sources

•Perform data analysis using tools such as SQL, Excel, and data visualization software

•Develop and maintain dashboards and reports to present insights to stakeholders

•Collaborate with cross-functional teams to understand business requirements and translate them into data-driven solutions

•Participate in data-related projects and initiatives, contributing to the development of data-driven strategies

•Identify trends, patterns, and anomalies in data to support decision-making processes

•Continuously learn and stay up-to-date with the latest data analysis techniques and technologies

Job Requirements

About You

Minimum Qualifications:

• Currently pursuing a degree in Data Science, Statistics, Computer Science, or a related field

•Proficiency in SQL and data manipulation tools (e.g., Excel, Tableau, Power BI)

•Excellent communication and collaboration skills

•Ability to work independently and as part of a team

•Passion for data-driven insights and a desire to learn and grow

Preferred Qualifications:

• Experience with programming languages such as Python or R

•Strong analytical and problem-solving skills

Citizenship Requirement   N/A
