UX Researcher Co-op

Location: Vancouver, British Columbia

Inspire the World, Create the Future

Do you believe in the power of technology to help shape a brighter future and a stronger global community? Are you inspired by the possibilities? Are innovation, camaraderie, and the pursuit of excellence part of your innate drive? Then you've got what it takes to succeed at Samsung.

Samsung R&D Canada is looking for a co-op student to join its User Experience (UX) Research team. This student will support and conduct research studies to improve a variety of enterprise products. Our team is agile, supportive, and works closely with our students to effectively contribute to the organization.

Who You Are

•Pursuing a Bachelor's or graduate degree in Human Computer Interaction (HCI), Design, Psychology, or similar

•Dependable and resourceful self-starter who is passionate about being a voice for users, and

collaborates well with a variety of colleagues

What You'll Do

•Assist with planning and conducting user research studies using a number of methods, such as usability testing, interviews, and surveys

•Recruit participants

•Support data analysis to discover user insights

•Discuss research results with the product team to inform design and strategy

Additional Information:

• $20-$27/hr (Co-Op pay will be determined based on a number of factors and may vary depending on job-related knowledge, completed study terms, relevant skills, and experience)

•8 months (January - August)

•Hybrid (Monday-Thursday in office, located in Vancouver)

•Interviews will be 30-45 minutes with selected candidates

Job Requirements

What You'll Bring

•Demonstrated multi-tasking and time-management skills

•Attention to detail and a commitment to quality

•Ability to work well in different teams, and in a rapidly changing environment

•Soft skills to interact effectively with a variety of people

•Fluency in oral and written English

Bonus Points

•Experience with organizing events or building community

•UX work experience in industry

•Experience with a diverse set of UX/HCI research methods

•Knowledge of best practices for user-centric design and research

Citizenship Requirement   N/A
