Job Title: UX Engineering Co-Op

Job ID: R030160

As the global leader in high-speed connectivity, Ciena is committed to a people-first approach. Our teams enjoy a culture focused on prioritizing a flexible work environment that empowers individual growth, well-being, and belonging. We're a technology company that leads with our humanity-driving our business priorities alongside meaningful social, community, and societal impact. Ciena Canada ULC is seeking a highly motivated and enthusiastic UX Engineering Co-Op for a 4 month term. This role offers an exceptional opportunity to gain hands-on experience in the cutting-edge field of optical networking, contributing to the design, development, and testing of interfaces for internal optical performance modeling tools.

How You Will Contribute

As a UX Engineering Co-Op, you will be involved in various aspects of development, including but not limited to:

• Pushing the boundaries of automation, speed, data processing and data visualization of an optical modeler.

•Designing and developing graphical interfaces for internal Submarine and Terrestrial optical performance modeling tools

•Conducting A/B and user testing gaining valuable feedback on usability and functionality and making necessary adjustments to improve user experience.

•Code-collaborate with a multi-functional team of designers and perform version control using Git.

Pay Range: The hourly pay range for this position is $25.00 - $34.00

Pay ranges at Ciena are designed to accommodate variations in knowledge, skills, experience, market conditions, and locations, reflecting our diverse products, industries, and lines of business. Please note that the pay range information provided in this posting pertains specifically to the primary location, which is the top location listed in case multiple locations are available.

In addition to competitive compensation, Ciena offers students access to the Employee Assistance Program (EAP), company-paid holidays, paid sick leave, and vacation pay as required by applicable laws.

At Ciena, we are committed to building and fostering an environment in which our employees feel respected, valued, and heard.

Ciena values the diversity of its workforce and respects its employees as individuals. We do not tolerate any form of discrimination. Ciena is an Equal Opportunity Employer, including disability and protected veteran status.

If contacted in relation to a job opportunity, please advise Ciena of any accommodation measures you may require.

Job Requirements

The Must Haves

• Working towards completion of a Bachelor's, Master's, or PhD degree in Computer Science, Computer Engineering, Engineering Physics or a related field.
•Interest in bridging the gap between design and implementation of a full stack application.
•Sketch/Figma/AbobeXD
•Javascript/Typescript
•Angular.js preferred but, experience with any frontend framework (React.js, Vue.js, Next.js) is an asset.
•Experience with development tools such as content versioning (e.g. Git) and bug tracking software (e.g. Jira).

Citizenship Requirement   N/A
