## JOB POSTING INFORMATION

**Placement Term** 2025 - Fall
**<b> Job Title <b>** F25 Software Developer 170863B
**Position Type** Co-op Position
**Job Location** Burnaby, BC
**Country** Canada
**Duration** 4 or 8 months
**Work Mode** Hybrid
**Salary Currency** CAD
**Salary** 3094.0 per month for 40 Major List
**Job Description**

**Please note that this position is contingent on funding.**

**Who are we**
OnTraccr is a construction tech startup founded by UBC alumni. OnTraccr helps construction companies manage their projects and automate their workflows.

**What we're looking for**
We are looking for a highly-motivated co-op software developer to join our early-stage construction technology startup and help us on our mission to automate how construction work is managed. You will work very closely with the founding team and CTO of the company so be ready to bring your own ideas to the table every day, work hard, and have fun along the way!

**Responsibilities**
• Work with the customer-facing team to turn business requirements into features
• Own full-stack feature delivery from architecture to release
• Collaborate with other developers to maintain engineering best practices.
**Perks**
• You will gain insights into the startup process and other business functions.
• You will be paired with a senior developer mentor.

**Location**

• Work in the office 3-5 days a week

## Job Requirements

**Requirements for the role:**

• Undergraduate student working towards a Bachelor degree in Computer Science or a similar field.

• A self-starter that likes to be challenged, loves learning new things and wants to have a real impact on both the product and process.

• Located in Vancouver.

• Preference for students available for 8-month co-ops

**Technical Experience**

• React/React Native

• Node.js

• MySQL

**Citizenship Requirement**          Canadian & Permanent Residents Only

# APPLICATION INFORMATION

**Application Procedure**          Through UBC Science Co-op

**Cover Letter Required?**          No
