Job Description

Posted Friday, January 9, 2026 at 1:00 AM | **Expires Sunday, February 1, 2026 at 12:59 AM**

Arcurve is one of North America's leading full-service technology, advisory and software development companies. In 2006, we began with a belief that there was a better way to deliver professional services in the technology industry. Since then, we have completed more than 1000 projects for clients ranging from start-ups to Fortune 500 companies. From our office in Calgary and hubs in Halifax, Houston, and Vancouver we deliver exceptional results for our clients in a diverse range of industries including telecommunications, oil and gas, transportation, private equity, gaming, infrastructure, software, finance, and hospitality.

At Arcurve, we value collaboration, authenticity, and continuous learning. Our paid internships, ranging from 4 to 12 months, offer hands-on experience where you'll work on real business projects, receive mentorship, and develop valuable technical and professional skills. Our interns develop broad technology skill sets, solid business acumen, and professionalism in a fun, friendly environment.
• Passionate about technology
•An authentic and creative human
•Driven to succeed
•A believer in the importance of teamwork
•Community-minded
•An expert problem solver
•Someone who thrives on challenge
•Motivated by exceptional results

•Someone who understands good customer service

THE GOAL

We want to provide you with hands-on experience working in the technology industry as a Software Developer Intern while being mentored by talented industry professionals.

THE RESPONSIBILITIES

• Design, develop, and implement web-based business solutions

•Develop modern websites using API creation and RESTful services

•Collaborate with a multidisciplinary team on multiple projects

THE PERKS

• A fun work atmosphere that values equity, diversity, and inclusion

•A dedicated mentor who is focused on your professional growth

•Hybrid work environment and flexible scheduling

•Social activities to encourage team bonding

We want to hear about you! If you are selected for a panel interview, we ask that you please come prepared with a presentation about a personal or school project that you're proud of.

Job Requirements

THE REQUIREMENTS

We totally get it. You're a student - we don't expect you to come in with a glossy resume detailing many years of experience. However, what we do require is for you to demonstrate:

• An interest in all things technical - have you created anything? What did you learn?

•Eagerness to explore new technologies

•Creativity in everything you do

•Strong teamwork and collaboration skills

•Excellent problem-solving abilities

•Commitment to supporting our community and culture

•A curious mindset - always asking questions

•The desire to contribute to a peer-based organization

Citizenship Requirement   N/A
