Job Description	

September 2025 Cybersecurity/IT Co-op Student (CIP)

Job Id: 18515

Apply Before: <mark>06/13/2025</mark>

Locations

• Calgary, AB, CA

•Edmonton, AB, CA

What We Offer:

• A culture based on caring, integrity, agility, collaboration, safety, and belonging

•Salary increases every semester plus 6% vacation pay

•Opportunities to give back through ATCO's EPIC Program and team events

•Well-Being@ATCO Health & Wellness Program

•So much more!

Your career journey at ATCO has the potential to be full of new experiences, inspiring challenges, and growth without boundaries. Set your sights on how you want to grow and develop, and we'll be right there to support you along the way.

What you get to do:

•Partake in the management and development of ATCO's Critical Infrastructure Protection (CIP) Compliance Program and associated processes, procedures, forms, and provide implementation support for changes with employees and contractors.

•Contribute to new development, execution, and maintenance of the ATCO Electric ARS compliance process documentation as it relates to AESO ARS CIP Standards.
•Regularly review CIP ARS evidence, compliance processes, and associated documentation for completeness.
•Review reports (exception, periodic, self-reporting, and self-certification) for completeness and consistency and recommend submission of appropriate reports to the MSA and AESO
•Prepare evidence for assigned CIP standards, supporting internal and external audits.
•Contribute to and support annual self-certification
•Contribute, support, and assist with implementation of compliance software tools
•Support regulatory compliance to manage, develop, and maintain effective controls, monitoring solutions, and compliance reports
•Partner with other team members in preparing all reporting to both internal and external regulatory agencies
•Support senior team members with development and maintenance of department KPI's, assisting with planning improvements, and aligning service improvements with KPI's to foster a culture of ARS CIP compliance
Please note that only those selected for interviews will be contacted.

Job Requirements

Who you are:
• Must be enrolled in a co-op (or internship) program at a recognized Canadian university.
•Have Excellent computer skills and experience working with Microsoft Office Suite.
•Ability to communicate verbally and in writing clearly and concisely, using appropriate technical vocabulary.
Qualifications:
• Currently enrolled in a Computer Science, Computer Engineering, Software Engineering, or related field.
•Strong interest and aptitude in cybersecurity and IT.
•Proven ability to communicate and collaborate effectively with clients, support staff, vendors, and service providers.
•Demonstrated ability to troubleshoot issues in complex mission-critical environments.
•Excellent organizational and planning skills with the ability to manage competing priorities.
•Strong personal initiative, ability to deliver high-quality results, and a desire for continuous improvement.
•Ability to work independently and as part of a team.
Citizenship Requirement   N/A
