Job Description

Job Description

Oncoustics is a start-up that uses AI on ultrasound data to help find disease. We are looking to hire a student for an 8 month Co-Op term. Eligible applicants should be in their second year or beyond in a business, engineering, science, or medical based field. Specifics of the opportunity include:

Responsibility

• Understand company solutions and customer use

• Test solutions for issues, log concerns, and work with development teams to fix

• Propose and develop systems to improve QA performance and efficiency

• Collaborate efficiently with other team members

Job Requirements

Requirements

• Must be actively enrolled in an accredited Canadian University or College during the co-op placement.

• Experience in working with technology-based solutions, preferably physical devices and mobile applications

• Completed at least the second year, and currently enrolled in an accredited Canadian University in Engineering, Comp Sci, Physics, Math, etc

•Must be a Canadian Citizen or Permanent Resident
•Must be willing to come into our Toronto Office, 155 Queens Quay East

Good To Have
• Programming experience
•Prior experience in the biomedical field
•Self-motivated

Citizenship Requirement   Canadian & Permanent Residents Only
