JOB POSTING INFORMATION

Placement Term 2026 - Summer
** Job Title ** S26 Junior Engineer 179268B
Position Type Co-op Position
Job Location Markham, ON
Country Canada
Duration 8 or 12 months
Work Mode Fully Remote
Salary Currency CAD
Salary 0.0 per hour for 0 Major List
Salary Range \$ \$20-30/h

Job Description

Company: HyperHSA

Physical Design Implementation:

- Assist in digital physical design implementation from netlist to GDSII
- Support floorplanning, placement, clock tree synthesis (CTS), routing, and optimization
- Participate in PPA optimization (Performance, Power, Area) Work with senior engineers to resolve physical design challenges

Timing Analysis and Optimization:

- Assist in static timing analysis (STA) using industry-standard tools
- Support timing constraint setup and debugging
- Analyze timing violations and assist in timing closure
- Participate in timing optimization for high-performance designs

Physical Verification:

- Support physical verification including DRC, LVS, and antenna checks
- Assist in resolving design rule violations
- Work with verification and implementation teams to ensure design integrity

Automation and Flow Development:

- Develop and maintain EDA automation scripts
- Support flow improvement and regression testing
- Assist in improving design productivity through automation

Job Requirements

Basic knowledge of digital IC physical design flow, including:

- Understanding of ASIC design flow from RTL to GDS is preferred.
- Programming / Scripting
- Basic scripting or programming skills are preferred: Python, TCL, Shell scripting

Enrolled in one of the following programs/related programs:

- Electrical Engineering
- Software Engineering
- Mathematics/Statistics
- Computer Science
- Data Science
- Physics
- Mechanical Engineering

Citizenship Requirement N/A
