Job Description

Job Title: Cloud Engineering Intern - DevOps & SRE (May Co-op or Internship Opportunity - 4 Months)

Job ID: SMALL007122

Application Deadline: March 22, 2026 at 11:59pm

Description

Our Story & Purpose:

Vancity is a member-owned credit union built on the principles of inclusion, social justice, and community impact. Since 1946, we've worked to challenge the status quo, break down barriers, and build a more equitable future. With bold commitments—including becoming net-zero by 2040 across all mortgages and loans—we are championing financial resilience, climate action, and belonging for our members and communities.

As the largest private sector Living Wage Employer in Canada and home to a team of 2,300 passionate employees, Vancity offers competitive rewards and benefits, diverse career pathways, and the opportunity to be part of something bigger.

The Opportunity:

We're looking for two (2) interns to join our Cloud Engineering team for a 4-month opportunity. The Cloud Engineering team at Vancity builds and operates the cloud and platform foundations that support banking products and services. These roles will report to the Sr Manager SRE (or Sr Manager DevOps) and work closely with SRE, Observability, Product and ITSM teams. These roles will receive additional mentorship from senior Cloud and SRE engineers.

A typical day would involve:

- Supporting backlog grooming and prioritization in Azure DevOps under guidance from senior engineers

- Tracking project deliverables, dependencies & assist with status reporting
- Participating in meetings with SRE, Observability, Product and ITSM teams
- Gathering and documenting user feedback on tooling usability and operational workflows
- Creating clear documentation and summaries to support decision-making
- When required, developing code with PowerShell, Python or NodeJS

What You'll Earn:

This role offers a pay range of \$27.85/hr.

Application Details:

Please submit your resume. Cover letters and transcripts are optional but appreciated.

This posting will close on March 22, 2026 at 11:59pm

Why You'll Love Working Here:

- When you join Vancity as an employee and a member, you join a movement that believes that when we use money for what's right, we truly are a financial force for change.
- We are the largest private-sector Living Wage Employer in Canada and have been consistently recognized as one of the Top Employers in Canada. Come join our team of 2,600 diverse individuals and access competitive rewards & benefits, all while knowing you are a part of a greater movement.
- Start your Vancity career journey with us even if you're new to financial services! We provide in-house paid training to gain general financial knowledge, and to learn about our products & services. We encourage opportunities to learn & develop to prepare you for career success, which in turn continuously impresses how we serve our membership.
- Vancity is committed to a diverse workplace and values Integrity, Innovation, Responsibility and Reconciliation.

Vancity Talent Programs:

Vancity supports an inclusive hiring process for candidates who self-identify as Indigenous, Black, or Trans. With special permission from the BC Human Rights Commissioner, this initiative provides access to career development opportunities, prioritized job screening, and feedback. Any information you choose to share will be stored securely and used only for recruitment and career development connected to this initiative, in line with the BC Personal Information Protection Act (PIPA). For details, please see our dedicated Talent Programs job posting.

Accommodations Process:

This role is an open vacancy, and our hiring process is grounded in fairness, transparency, and inclusion. We are committed to an inclusive, barrier-free and accessible recruitment experience for all candidates. If you require any accommodations or support at any stage of the recruitment process (including the application stage), we encourage you to let us know by contacting our Talent Acquisition team at recruitment@vancity.com. We're here to work with you to ensure your needs are met promptly and effectively. All requests will be handled with the utmost respect and confidentiality, so you can participate fully in the process.

Job Requirements

You are:

- Results-Oriented - You have a demonstrated ability to engage stakeholders to elicit requirements gathering, analyze findings, generate appropriate solutions, and build deliverables all while securing team's commitment to these solutions.
- Technology Savvy - You have education and/or experience supporting technology development/ implementation efforts.
- Critical Thinker - You seek to facilitate data-driven decision making, including "rolling up your sleeves" to elicit requirements, research, analyze data
- Curious & innovative - You always do your research and analyze it to assess and recommend a course of action considering industry best practices
- A team player - you can engage with members of your team as well as cross-functional teams and are willing to collaborate across projects and initiatives.

You have:

- Current enrollment or recent graduation from an undergraduate program within an applicable field and eligible for co-op/internship opportunities
- An interest in Cloud or Infrastructure engineering
- Experience with process improvement and workflow optimization
- Exposure to data analysis, reporting and stakeholder feedback synthesis
- Knowledge of DevOps, SRE or Observability practices
- A willingness to work in a highly flexible environment with multiple competing priorities.
- A high level of attention to detail

Bonus points, if you have:

- Familiarity with Azure DevOps, Jira or similar work management tools
- Exposure to cloud platforms (Azure preferred, GCP or AWS is nice to have)
- Basic understanding of SRE, monitoring or IT operations concepts
- Documentation and presentation skills
- Coding Experience

Citizenship Requirement N/A
