Job Description

Location: Vancouver, British Columbia
Inspire the World, Create the Future

Do you believe in the power of technology to help shape a brighter future and a stronger global community? Are you inspired by the possibilities? Are innovation, camaraderie, and the pursuit of excellence part of your innate drive? Then you've got what it takes to succeed at Samsung.

Samsung is looking for an enthusiastic Co-Op student to join the Samsung Account team. You have a passion for making cloud applications, and willingness to participate in the full development cycle from requirements and development, performance and automation, and learning how to deploy highly scalable solutions.

What You'll Do

- You will join and collaborate with a talented team of the best and brightest Cloud Service Engineers, DevOps and Performance Engineers who work on leading edge technologies and projects that touch millions of people
- Be constantly challenged to learn and grow with new technologies and complex problems
- Get hands-on experience with cloud platforms (AWS/Azure/GCP) and services
- Build and test REST APIs and web services that serve millions of users
- Learn to design and work with SQL/NoSQL databases for scalable applications
- Experience CI/CD pipelines, testing automation, and deployment processes
- Learn messaging systems and event-based architectures
- Collaborate with other groups across the organization and other projects

Job Requirements

What You'll Bring

- Pursuing a Bachelor's or Master's degree in Computer Science or Engineering
- First and foremost, you are a team player and know how to work well with others
- Strong analytical mind and start with the end in mind when designing your applications
- Passion for solving complex problems and have a high degree of aptitude when it comes to learning new technologies
- Excellent communication skills both written and verbal
- Basic programming knowledge (any language)

Bonus/Nice to Have:

- Git/version control experience
- Experience with basic database or web concepts
- Interest in cloud platforms

Citizenship Requirement N/A
