#### About ICBC

ICBC is one of BC's largest corporations and one of Canada's largest property and casualty (P&C) insurers with annual earned premiums of \$6.0 billion and \$17.5 billion in assets. We are driven to ensuring the well-being of drivers while working to keep rates low, delivering excellent service consistently, and proactively partnering to reduce crashes. We are a dynamic and forward-thinking organization dedicated to leveraging data-driven insights to fuel our business strategies and decisions.

ICBC is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.

#### Are you:

- Passionate about data
- Curious about trends, patterns and outliers

- Creative visualizing data
- A self-starter who is motivated and ready to learn!

### Position Highlights

We are looking for an analytical and highly motivated individual to join our Business Analytics team as a Data Analyst on a co-op term. This position offers a unique opportunity to gain hands-on experience working with insurance data and building visualizations in a collaborative and innovative environment. You will utilize your querying skills and data visualization techniques to support our business operations partners and play a crucial role within our analytics team. Your ability to translate business requirements into data requirements and ultimately into business insights will support informed data driven decision-making across the organization.

### What We Offer

- Hands-on experience in a real-world business analytics environment.
- Mentorship from experienced data professionals.
- Opportunity to work on meaningful projects that impact business decisions.
- A supportive and inclusive workplace culture.
- Networking opportunities with professionals across the organization.

This position resides out of the North Vancouver head office and includes a hybrid work model.

**Salary:** \$26.86 per hour + 11.2% in lieu of vacation and stats

### Job Requirements

#### Qualifications

- Currently pursuing a degree in Statistics, Mathematics, Data Science, Computer Science, or a related field.
- Proficiency in SQL with experience in querying databases.
- Basic knowledge of data visualization tools (e.g., Tableau, Power BI, or similar).
- Strong analytical and problem-solving skills.
- Ability to work independently and collaboratively in a team environment.
- Excellent communication skills, both written and verbal.
- Detail-oriented with a strong commitment to accuracy and quality.

#### Position Requirements

- Write and optimize SQL queries to extract, manipulate, and analyze data from various databases.
- Develop and maintain basic data visualizations and dashboards to communicate insights effectively to stakeholders.
- Collaborate with business units to understand their data needs and translate these into clear data requirements.
- Assist in the preparation of reports and presentations that summarize findings and recommendations.
- Support ad-hoc data analysis requests to drive business improvements and strategic initiatives.
- Participate in team meetings and contribute ideas for improving data processes and methodologies.

**Citizenship Requirement** N/A

## APPLICATION INFORMATION

**Application Procedure** Through UBC Science Co-op

**Cover Letter Required?** Yes

**Address Cover Letter to** Hiring Manager

### Special Application Instructions

Please submit an additional PDF document answering the questions below:

1) "Persons with disabilities" means persons who have a long-term or recurring physical, mental, sensory, psychiatric, or learning impairment, and who a) consider themselves to be disadvantaged in employment by reason of that impairment, or b) believe that an employer or potential employer is likely to consider them to be disadvantaged in employment by reason of that impairment, and includes persons whose functional limitations owing to their impairment have been accommodated in their current job or workplace. Examples of what is considered a disability include, but are not limited to, the following impairments or issues relating to: Coordination or dexterity (difficulty using hands or arms); Mobility (difficulty moving around and may include severe back problems); Non-visible, physical conditions such as: heart problems, chronic pain, diabetes, epilepsy, asthma, glaucoma, and lupus; Hearing and visual; Speech, such as muteness; and difficulty speaking and being understood; Learning, such as: Dyslexia; Mental or psychiatric such as: depression and burn-out; A disability for which the employer provided an accommodation.

Based on this definition, do you identify as a person with a disability?

Yes or No

We welcome applications from all qualified job seekers. If you are a job seeker with a disability, please let us know below what adjustments can be made to help support you in delivering your best performance:

2) Do you self-identify as Indigenous (First Nations, Inuit or Metis) as permitted under Paragraph 42 of the BC Human Rights Code?

Yes or No

**3)** Please clarify your eligibility to work in Canada. If you are on a visa, specify the type, any associated restrictions, and the visa expiry date:

I am eligible to work in Canada without limitations (e.g., Canadian citizen or permanent resident)

I am eligible to work with **certain limitations**. Please **attach** a copy of your valid work permit in your application and indicate which type of permit applies from the options listed below:

Study Permit (Student - Max 24 hours per week) - Expiry & restrictions:

Co-op Work Permit - Expiry & restrictions:

Open Work Permit - Expiry & restrictions:

Closed Work Permit (Employer-specific) - Expiry & restrictions:

I am not currently eligible to work in Canada

4) We require all students to return to their studies and complete at least one academic term following the conclusion of their co-op. Will you be meeting this requirement if you are hired for this position?

Yes or No

If this doesn't apply to you, please explain:

5) What is your expected program completion date:
