Job Description	

Our Commitment to Students

At Canadian Tire, we are committed to providing students with a supportive and collaborative environment that fosters knowledge sharing and offers key experiences to help them develop their capabilities through projects and objectives. We believe in setting specific and measurable goals that align with our business objectives to support learning and help students achieve their full potential. Our culture emphasizes learning from others, continuous improvement, agility, growth, and innovation, and we are invested in building a talented, diverse workforce for the future of Canada and Canadian Tire. Additionally, we are dedicated to building strong relationships with our student employees by engaging with them throughout their education and career pursuits and creating opportunities for ongoing communication and relationship building.

What you'll do:

We are seeking a motivated Data Engineering Student to join our team! This role will focus on building and optimizing data pipelines, ensuring data quality, and supporting analytics initiatives across the organization:

- Design, develop, and maintain ETL (Extract, Transform, Load) processes for large-scale datasets.
- Work with cloud platforms (e.g., Azure, Hadoop) to manage data storage and processing.
- Collaborate with data scientists and analysts to ensure data availability and integrity.
- Implement data validation and monitoring tools to maintain high-quality datasets.

- Document workflows and contribute to best practices for data engineering.

Job Requirements

What you bring:

- Currently enrolled in a post-secondary program in Computer Science, Engineering, Data Science, or a related discipline
- Familiarity with SQL and one programming language (Python, Java, or Scala).
- Understanding of data modelling and relational databases.
- Exposure to big data technologies (e.g., Spark, Hadoop) is an asset.
- Strong problem-solving and communication skills.

We're always looking for great talent! In addition to competitive pay, we offer:

- Career growth opportunities and product discounts

Citizenship Requirement N/A

APPLICATION INFORMATION

Application Procedure Through Employer Website

Special Application Instructions

Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.
