Embedded Software Developer Co-op (Optical Circuit Switch)

Overview

Lumentum is seeking an Embedded Software Developer Co-op to join a team building the next generation of high-performance optical communication systems. In this role, you will work alongside experienced engineers and contribute to production-quality software used in real customer deployments.

The Opportunity

This is a **4-8 month onsite co-op position** based in **Ottawa**, starting in **May 2026**. You will gain hands-on experience developing embedded software for advanced optical networking products while working in a collaborative engineering environment.

- Pay Range: **\$24-35/hr**
- Existing Vacancy

Responsibilities

- Design, implement, and debug embedded software in **C/C++** on **Linux-based systems**
- Participate in requirements analysis and software design reviews
- Develop, document, and execute unit- and system-level test cases
- Troubleshoot low-level software issues, including hardware-software interactions
- Participate in code reviews and follow established software development processes

Job Requirements

Education Qualifications

- Currently enrolled in a **Computer Engineering, Computer Science, or Electrical Engineering** co-op program

Required Skills & Qualifications

- Experience programming in **C and/or C++**
- Strong problem-solving and debugging skills
- Ability to work effectively in a team environment with good communication skills

Nice-to-Have Skills

- Experience with **embedded Linux** software development
- Familiarity with **Git** or other version control systems
- Exposure to networking concepts or low-level system software

Eligibility

- Must be registered **full-time or part-time** at a recognized **Canadian post-secondary institution**

What You'll Gain

- Hands-on experience with real-world embedded software development
- Exposure to production codebases and professional development workflows
- Practical debugging experience on complex systems
- Insight into optical networking products and technologies

Citizenship Requirement N/A

APPLICATION INFORMATION

Application Procedure Through Employer Website

Special Application Instructions

Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.
