Quality Assurance Coordinator Co-op (JG Loyalty Platform)

About NRT

At NRT, we build more than solutions: we build up each other.

NRT is a worldwide leader in future-ready FinTech and Information Technology designed to elevate and enhance the enterprise gaming industry. Our next-generation solutions encompass every aspect of the modern integrated resort, including secure payment systems, AML compliance and reporting tools, credit information and electronic marker services to intelligent and engaging table game platforms, dynamic financial and marketing kiosks, and our completely customizable digital gamification and mobile experiences. NRT has acquired JOINGO®, a revolutionary resort app engagement platform dedicated to unifying guest experiences, offering a seamless experience from booking to checkout through App Builder, which has more than 100 third-party integrations which are unmatched in the industry.

Our strategic partnerships have resulted in the most convenient, reliable, and secure omni-channel payment ecosystem in the industry. Our collective solutions are used by casinos, race and sports operators, lotteries, banks, and retailers-- globally-- to

dazzle their guests.

We believe in the value of connection and community. Our diversity in skills and background make us a unique and formidable culture. We encourage the growth of individual development and recognize that our success depends on developing each other. To stand firm is to stand together.

Our combined innovation and success is rewarded through competitive salaries, paid time off, individual growth plans, community sharing, collaboration, Health Benefits (including medical, vision, dental, EAP, etc) and more. We provide training, product knowledge demos, tiered-lever skill building, development workshops, teambuilding exercises, webinars, and more. Joining NRT is more than a job-- it's an opportunity to grow and discover.

To learn more about who we are and what we do, visit our website at www.nrttech.com.

The Joingo loyalty platform is a comprehensive suite of tools and services designed to build and support mobile applications (iOS, Android, and Web) for casinos. These applications serve marketing and operational functions but explicitly do not include direct gaming functionality. Joingo-powered apps currently generate approximately ¼ billion page views annually. The bespoke nature of our apps is a key factor in attracting and retaining our clients. As a result, the challenges we address involve both large-scale performance and fine-grained detail.

Reporting to **Manager of QA, Support, Releases**, the **Quality Assurance Coordinator Co-op** developing and executing comprehensive test plans for applications development, oversee QA of mobile/web application, customer training of mobile/web applications, and supporting the **Manager of QA, Support, Releases** in mobile/web application release tasks.
