Job Description	

Job Description:

Join our team working on **AtHoc**, a real?world emergency communication platform used by governments, healthcare, and military organizations. You'll get hands?on experience across **iOS, Android, macOS, and React**-a rare chance to explore multiple areas and find what you love.

What You'll Do

- Work on real features for our iOS, Android, macOS, and web apps
- Learn modern tools like SwiftUI, Jetpack Compose, and React
- Fix bugs, build UI, test your code, and join code reviews
- Collaborate with senior developers who will mentor you

What You'll Gain

- Experience across **multiple platforms** (mobile + web)
- Strong mentorship and support
- Real impact-your work helps improve emergency communication
- A great foundation for your future career

Job Requirements

What We're Looking For

- Currently studying Computer Science, Software Engineering, or related field
- Solid understanding of object-oriented programming
- Curious, proactive, and willing to learn
- Good communication and problem-solving skills

Nice to have (but not required):

- Swift/SwiftUI, Kotlin/Java
- React, JavaScript/TypeScript
- Git, REST APIs

If you've built school or personal projects, we'd love to see them!

Citizenship Requirement N/A
